

Please continue supporting this DO NOT CALL LIST! I have a 91-year old grandmother whose number I had to make unlisted because of the number of calls she would receive in one day from different organizations asking her for money. She, like her father before her, made the mistake of making donations to a couple of organizations. This mistake brought on an unbelievable amount of letters, gifts, address labels, flags, umbrellas, etc. from organizations who claim to be non-profit needing donations. I have tried, without success, to stop these mailings.

I enrolled my Grandmother and myself on the DO NOT CALL LIST. This, along with private phone numbers, has decreased the number of these incidents. Some organizations still call and claim they are not subject to the DO NOT CALL...they receive my dial tone. However, we NEED to continue to have this law in effect. Please do not eliminate it!
